Tradition Halfway House for Men

Pyramid Healthcare's Halfway House Program at Tradition House provides a trauma informed, person centered treatment model for adult men in search of meaningful, long-term recovery.

In addition to evidence-based treatment, clients participate in scheduled groups, individual counseling, and a variety of services that support their transition to a sober lifestyle in an urban setting.

Our structured programming encourages clients to make positive life changes by incorporating healthy recovery skills, obtaining employment, engaging in volunteer activities, and pursuing educational opportunities.

What We Offer

- » Evidence-based treatment including CBT, Motivational Interviewing, and mindfulness-based treatment
- » Medication Assisted Treatment (MAT) education and maintenance of Brixadi®, Methadone, Suboxone®, and Vivitrol®
- » 12 week parenting track
- » Recovery-based support groups
- » Educational groups
- » Individual and group therapy
- » Nutrition and spirituality education
- » Psychoeducation
- » Referrals to Case Management and Certified Recovery Services (CRS)

Phases

Phases is designed to help clients develop a solid foundation for long-term recovery by providing them with opportunities to earn part time employment (32-hours per week maximum), participation in volunteerism and passes as they progress through the levels or phases of the halfway house program.

Life Skills

Groups promote client self-sufficiency and responsible living by offering guidance and instruction on topics such as financial and stress management, communication and coping skills, goal setting, problem solving, volunteerism, social etiquette, interviewing skills, and the appropriate utilization of community resources.

Job Training & Employment Services

In an effort to develop responsibility, reliability, and teamwork, treatment planning includes the assignment of specific job duties to each client for successful completion. Our staff helps clients complete employment applications, practice interview skills, connect with community employment resources and apply for photo identification and/or a social security card. Men without a high school diploma can attend community classes and testing necessary to obtain a GED.

Medication Assisted Treatment (MAT)

Pyramid Healthcare's Halfway House for Men at Tradition House supports maintenance of Brixadi®, Methadone, Suboxone®, and Vivitrol®. While we do not offer induction services for clients while in treatment, we do provide clients with MAT education and appropriate MAT aftercare recommendations if requested.
