Mountaineer Outpatient Treatment Center

We are proud to offer Outpatient (OP) and Intensive Outpatient (IOP) services in West Virginia as part of our comprehensive continuum of care in the eastern panhandle. These flexible treatment options provide individuals with the structure and support they need while allowing them to maintain daily responsibilities at home, work, or school.

By integrating OP and IOP programming into our full spectrum of services, we ensure clients have access to the right level of care at every stage of their recovery journey, promoting long-term healing, stability, and wellness close to home.

What We Offer

- » Daily Assessments
- » Individual Therapy
- » Intensive Outpatient Program (IOP)
- » Outpatient Program (OP)
- » Telehealth Accomodations
- » Medication Assisted Treatment (MAT), including Suboxone®, Sublocade®, Brixadi® & Vivitrol®
- » Case Management Services
- » Evidence Based Treatment Curriculum

Intensive Outpatient Program

Pyramid Healthcare's intensive outpatient program (IOP) is designed for individuals who need more structure than traditional outpatient care can provide, but who do not require the intensive 24-hour supervision of residential treatment.

Our IOP services are tailored to support clients with comprehensive care while providing them with the flexibility needed to maintain their daily responsibilities.

Through a combination of individual, group and family therapy sessions that utilize proven and holistic treatment approaches like cognitive behavioral therapy (CBT) and dialectical behavior therapy (DBT), clients come to understand the root causes of addiction, develop healthier thought patterns and build resilience against relapse for lasting recovery.

Insurances Accepted

Pyramid Healthcare accepts WV Medicaid and most commercial insurances, including:

- » Aetna
- » CareSource
- » Cigna
- » MD Medicaid
- » Highmark
- » Optum
- » PeakHealth
- » United Healthcare (Carelton)

We are also a proud member of the Veterans Affairs Community Care Network (VA CCN).
